CLEARINGHOUSE RULE 94-218

Comments

[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Revisor of Statutes Bureau and the Legislative Council Staff, dated October 1994.]

2. Form, Style and Placement in Administrative Code

Since the terms defined in proposed s. NR 422.02 (1e) and (1m) alphabetically precede the term defined in current s. NR 422.02 (1), it is suggested that current s. NR 422.02 (1) be renumbered so that the proposed definitions may be placed before it.

5. Clarity, Grammar, Punctuation and Use of Plain Language

a. Section NR 422.127 (1) (b) seems vague. Should the paragraph specify what materials are included in the category of nonwood?

b. In s. NR 422.127 (3), the emissions of volatile organic compounds (VOC's) is measured in kilograms per liter with the pounds per gallon measurement in parentheses. However, the rest of the section requires facilities to measure the emissions of VOC's in pounds per gallon. For consistency, s. NR 422.127 (2) and (4) could include kilograms per liter.
